EXECUTIVE SUMMARY

Seasoned AI and technology leader with over **18 years of experience** in software product engineering and **AI-driven innovation** across multiple domains including finance, healthcare, insurance, and telecommunications. Proven success in leading large teams and architecting enterprise-scale intelligent systems integrating **Agentic AI, Generative AI, Computer Vision, and data-driven automation**.

Expert in designing and implementing advanced **multi-agent AI architectures, RAG pipelines, and Model Context Protocol (MCP)** frameworks using **LangChain, LlamaIndex, Embedchain, LangGraph and LangAI**. Recognized for transforming organizations through **AI strategy, innovation, and digital transformation** initiatives that deliver measurable business impact.

Strong background in **cloud-based AI deployment (AWS, Azure, On-prem)**, technical leadership, and stakeholder management. Passionate about building scalable, ethical, and explainable AI ecosystems that align with long-term business goals.

CORE COMPETENCIES

- **AI Leadership:** Strategy, Architecture, and Delivery of large-scale AI systems integrating **Agentic AI, Generative AI, and Computer Vision** for enterprise applications.
- **Agentic AI & LLM Ecosystems:** LangChain, LlamaIndex, CrewAI, AutoGen, LangGraph, MCP (Model Context Protocol), PromptLayer, and Trulens for multi-agent orchestration and evaluation.
- **Machine Learning & Analytics:** Predictive Modelling, Reinforcement Learning, LSTM, Transformers, Recommender Systems, and Risk Modelling.
- **Computer Vision & OCR:** OpenCV, Tesseract, EasyOCR, PDFPlumber, and custom CNN architectures for image processing and visual intelligence.
- **Cloud & MLOps:** AWS (S3, SageMaker, Bedrock), Azure (OpenAI, ML Services), GCP (Vertex AI), Docker, Kubernetes, MLflow, and Kubeflow.
- **Leadership & Strategy:** AI Roadmapping, Team Management, Solution Architecture, Pre-sales, P&L Ownership, and Innovation Management.

PROFESSIONAL EXPERIENCE

ITC Infotech, Hyderabad

Senior Principal Data Scientist — Aug 2021 – Present

- Lead a 30-member AI organization delivering enterprise solutions across **Insurance, Finance, Pharma, and Clinical Research** domains.
- Architected and implemented **Agentic AI ecosystems** using LangChain, LlamaIndex, and CrewAI — enabling autonomous document analysis, knowledge retrieval, and workflow automation.
- Designed and deployed **RAG (Retrieval-Augmented Generation)** and **multi-agent orchestration pipelines** leveraging MCP (Model Context Protocol) to improve contextual accuracy by 35%.
- Delivered production-grade **Computer Vision** and OCR solutions (OpenCV, EasyOCR, PDFPlumber) for document intelligence, signature/stamp detection, and image-based data extraction.
- Spearheaded AI initiatives that reduced **legal document processing from 2 years to 1 month**, saving over **10M (USD 120K)** annually.
- Designed and managed an **AI-based sentiment analysis trading system (2023)** that generated **USD 8M** in realized profit through automated signal-driven execution.
- Led the **AI-driven image analysis of mechanical drawings and metadata extraction** initiative (2025) projected to generate **USD 5M+** in engineering process optimization revenue.
- Developed **propensity and risk models** in insurance, increasing customer engagement and lifting revenue by **£1.4M (2022)**.
- Led the CoE team overseeing **P&L ownership, pre-sales, and RFP strategy** — driving **USD 6M+** in new business revenue during 2024.

- Published two IEEE papers and mentored 50+ engineers on AI architecture, product innovation, and applied research.

AntWorks, Hyderabad

Senior Data Scientist — Jun 2019 – Aug 2021

- Led a 20-member team building the **Cognitive Machine Reading (CMR)** platform, processing over 10M documents across structured, semi-structured, and handwritten formats.
- Integrated **hybrid AI + OCR** methods for handwriting, logo, and vernacular text detection — achieving a 40% improvement in recognition accuracy.
- Architected reusable microservices for text extraction and document classification, enabling seamless integration into enterprise RPA ecosystems.

Atmecs, Hyderabad

Data Scientist — Mar 2017 – Jun 2019

- Built end-to-end AI pipelines for social-media-based **customer segmentation, churn prediction, and recommendation systems**.
- Created and deployed analytics dashboards for **customer behavior insights** using PySpark, Kafka, and Databricks.
- Mentored a 10-member development team in machine learning best practices and model evaluation for production-scale deployment.

MaxLinear, Bangalore

Staff Engineer — Aug 2012 – Mar 2017

- Designed and developed host management software and anomaly detection systems for **wireless backhaul chipsets**, with over **80M units shipped globally**.
- Built time-series anomaly detection models for satellite communication systems to improve network reliability.
- Filed a patent for enhanced **UPnP model design**, improving device interoperability.

Samsung, Bangalore

Lead Engineer — Jan 2011 – Aug 2012

- Developed and integrated **Wi-Fi and P2P communication software** into Samsung Galaxy devices.
- Filed three patents related to **Wi-Fi Display (Miracast)** and cross-device streaming protocols.

Motorola, Bangalore

Software Engineer — Sep 2008 – Jan 2011

- Worked on **network protocol stacks and sensor-driven fault-tolerant systems** for routers and mobile hotspot devices.

KEY INNOVATIONS & PUBLICATIONS

- **Patents:** 2 granted, 3 under process — including innovations in Wi-Fi display and wireless communication.
- **Publications:** IEEE paper on “Deep Learning Based Sustainable Material Attribution for Apparel” (CASE 2022).
- **Products:** AI-driven CMR product (USD 1M revenue, 2019–2020); Design rebranding (USD 6M revenue, 2024).
- **Research:** Built predictive maintenance models and RAG-based retrieval systems for finance and healthcare.

EDUCATION

M.S. in Financial Engineering — WorldQuant University, New Orleans

2021–2023 (89%)

M.Tech in Computer Science & Engineering — NIT Calicut

2006–2008 (7.1 GPA)

B.E. in Information Technology — Osmania University, Hyderabad

2001–2005 (70%)

CERTIFICATIONS & RECOGNITIONS

- Certified in AWS SageMaker, Azure OpenAI, and Databricks ML.
- Recognized for “Best AI Initiative” at ITC Infotech (2023).
- Mentored 50+ engineers and data scientists in AI product development.
